Systematics and distribution of spruce species in the North-West of Russia

Supplementary Material

Appendix 1. Geographic locations of investigated specimens. Only mainland populations were studied using morphometric analyses

Location	N	E	m a.s.l.	Habitat	Date	Number of spec- men
<i>Picea abies</i> var. <i>abies</i>						
Republic of Karelia, coll. Orlova L.V., Byalt V.V., Potokin A.F., Ivanov S.A.:						
Northern Karelia, Belomorsk District, turn to Belomorsk	64°24'38.7"	34°11'36.9"	123	Vaccinioso-hylocomiosum (N plot 17)	20 VII 2010	71
Middle Karelia, Medvezhiegorsk District	63°5'58.9"	34°20'59.2"	185	Vaccinioso-hylocomiosum (22)	21 VII 2010	s.n.
South Karelia, Olonets District	60°56'08.9"	33°8'07.0"	32	Sphagnosum (30)	23 VII 2010	122
Leningrad Region, coll. Orlova L.V., Egorov A.A., Byalt V.V., Potokin A.F., Ivanov S.A.:						
Gatchina District, vicinity of Druzhnaya Gorka village	59°27'15.3"	30°06'48.4"	90	Oxalidoso-hylocomiosum (1)	30 VI 2010	4
Gatchina District, vicinity of Druzhnaya Gorka village	59°26'54"	30°06'29"	90	Sphagnosum (2)	30 VI 2010	4, 8, 10
Gatchina District, vicinity of Druzhnaya Gorka village	59°15'15"	30°13'18"	90	Vaccinioso-hylocomiosum (3)	30 VI 2010	11
Gatchina District, vicinity of Druzhnaya Gorka village	59°15'15"	30°13'18"	90	Sphagnosum (4)	30 VI 2010	13
Lodeynopolsky District	60°48'16.7"	33°44'23.4"	33	Sphagnosum (31)	23 VII 2010	128
Lodeynopolsky District	60°19'33.2"	32°54'18.7"	32	Hylocomiosum (32)	23 VII 2010	129-132
Leningrad Region, coll. Egorov A.A., Ivanov S.A., Kirillov P.S.:						
Podporozhye District, near the settlement of Voznesenye	61°01'32"	35°30'005"	55	Vaccinioso-polytrichosum (102)	22 VII 2011	205
Podporozhye District, near the settlement of Voznesenye	61°03'23"	35°34'34"	80	Vaccinioso-hylocomiosum (103)	22 VII 2011	208, 209
Podporozhye District, road Voznesenye-Podporozhye	60°54'46.7"	35°16'21.3"	139	Vaccinioso-hylocomiosum (104)	23 VII 2011	214, 217, 218
Podporozhye District, road Voznesenye-Podporozhye	60°54'05.5"	34°59'54.1"	139	Sphagnosum (105)	23 VII 2011	n.s.
Leningrad Region, Petrodvorets District, coll. E.A. Glazkova:						
Vicinity of Lomonosov	59°51'144"	29°44'744"	bilberry-bog moss pine-spruce forest with birch, near a power line		16 VI 2015	39
Leningrad Region, Islands of the Gulf of Finland, coll. E.A. Glazkova:						
Island Dolgij Kamen', the central part of the island			spruce forest		27 VI 2014	51
Island Kopytin, the central part of the island			selga		5 VII 2013	41
Island Severny Berezovy, NE part of the island	60°26.739'	28°28.754'	bilberry-green moss spruce forest		20 VII 2016	12
Leningrad Region, Islands of Vyborg Bay, coll. E.A. Glazkova:						
Island Mayachny, the northern part of the island	60°34.335'	28°25.560'	mix forest with <i>Tilia</i> , <i>Picea</i> , <i>Pinus</i> , <i>Populus tremula</i> of <i>Convallaria majalis</i> - <i>Vaccinium myrtillus</i> type		20 VI 2013	45
Island Rysiy, the central part of the island, near the isthmus between the two peninsulas	60°32.364'	28°34.714'	spruce forest with birch		15 VI 2013	16
Island Rysiy, in the central part of the island, near the isthmus between the two peninsulas			selga		15 VI 2013	18
Island Rysiy, the western cape of the northern peninsula			Picea oblongata		14 VI 2013	7
Murmans Region, coll. Orlova L.V., Byalt V.V., Potokin A.F., Ivanov S.A.:						
Apatty District, 3 km from town Apatty	67°34'51.2"	33°18'25.2"	121	Fruticoso-hylocomiosum (6)	17 VI 2010	20-22

Location	N	E	m a.s.l.	Habitat	Date	Number of speci-men
Apatity District, 26 km west from the town of Apatity	67°40'53.0"	32°50'52.9"	250	<i>Fruticuloso-hylicomiosum</i> (7), southern slope, on the mountain	17 VI 2010	23, 24
Monchegorsk District, environs of town Olenegorsk	68°10'39.4"	33°19'12.6"	146	<i>Fruticuloso-hylicomiosum</i> (8)	17 VI 2010	28, 29

Leningrad Region, Petrodvorets District, coll. E.A. Glazkova: Vicinity of Lomonosov	59°51'1'44"	29°44'7'44"		bilberry-bog moss pine-spruce forest with birch, near a power line	16 VI 2015	39

Location	N	E	m a.s.l.	Habitat	Date	Number of specimens
Vicinity of Lomonosov	59°53.061'	29°48.661'		mixed forest with pine, spruce, birch	9 VI 2015	4
Vicinity of Lomonosov	59°52.838'	29°46.172'		green moss spruce forest	11 VI 2015	26
Vicinity of Lomonosov	59°52.825'	29°44.418'		bilberry-green moss spruce forest	16 VI 2015	34
Leningrad Region, Islands of the Gulf of Finland, coll. E.A. Glazkova:						
Island Gogland, the central part of the island, near the former village of Kiiskinkylä					6 VI 2011	43
Island Gogland, the southern part of the island, on the terrace on the western slope of Louantorkia Hill					6 VI 2011	44
Island Gogland, SE part, Gorelaya Bay (Lehtsartama), near Alltarka-	60°01.280'	27°01.446'				
Illiöniemi Cape	60°00.912'	26°59.309'				
Island Moschny, east part, about 800 m to east of Zarantsa Bay, on the way to the isthmus on the Suisaari Peninsula	60°00.234'	27°50.874'				
Island Moschny, the western part, 200 m to east of Cape Zubets	60°00.263'	27°48.582'		sorrel spruce forest	3 VIII 2015	25
Island Moschny, northwest coast of Okolnaya Bay	60°00.833'	27°51.258'		spruce blueberry-green moss	5 VIII 2015	75
Island Moschny, north-west coast of Okolnaya Bay	60°00.776'	27°51.332'		in village, bilberry-green-moss pine-spruce forest	12 VIII 2017	8
Island Moschny, southeastern part, area of Cape Laskunemi	59°59.585'	27°51.444'		in village, outskirts of meadow pine forest	17 VIII 2017	104
Island Moschny, southeastern part, area of Zashchitnaya Bay	59°59.868'	27°51.368'		meadow-bilberry-green-moss spruce forest	19 VIII 2017	148
Island Uzornyi, the northern part of the island				in village, outskirts of meadow pine forest	19 VIII 2017	149
Island Uzornyi, the northern coast				sorrel spruce forest	20 VIII 2017	172
Island Uzornyi, the eastern cape				selga, birch-pine bilberry forest with spruce	20 VIII 2017	174
Island Orliny, the western coast				selga	7 VII 2013	104
Island Sokoliny, the western cape				young birch-pine forest with aspen, one tree	7 VII 2013	104
Maly Berezovy Island, the central part				birch-black alder forest with some spruce	8 VII 2013	121
Maly Berezovy Island, the western part of the island				spruce forest	10 VII 2014	22
Island Bolshoy Tuters, the southern part, SE part of the former Finnish village	59°50.250'	27°12.017'		spruce forest with oak	9 VII 2014	8
Island Bolshoy Tuters, the northern part, between capes Kuokkaneni and Tuikinniemi	59°51.935'	27°11.542'		spruce wood sorrel forest near the seashore	31 V 2015	61
Severny Berezovy Island, the north-eastern part	60°27.003'	28°28.229'		spruce wood sorrel forest	1 VI 2015	74a
Zapadny Berezovy Island, the northern part	60°21.840'	28°28.619'		spruce forest without the cover	2 VII 2015	6
Zapadny Berezovy Island, the northern part	60°21.735'	28°25.649'		pine bilberry-greenmoss forest	3 VII 2015	14
Zapadny Berezovy Island, the north-eastern part	60°21.390'	28°29.359'		spruce forest without the cover near the training camp of Admiral Makarov State Maritime Academy	3 VII 2015	16

Location	N	E	m a.s.l.	Habitat	Date	Number of specimens
Zapadny Berezovy Island, central northern part of the island, near the road from the training camp of Admiral Makarov State Maritime Academy to Malye Peski	60°21.292'	28°27.892'		pine bilberry-greenmoss forest	4 VII 2015	19
Bolshoy Berezovy Island, the south-eastern part, the village of Krasny Ostrov, Krasnoostrovskaya Bay	60°17.787'	28°40.274'		two old trees along the road near the seashore	8 VII 2015	54
Leningrad Region, Island of Vyborg Bay, coll. E.A. Glazkova:						
Island, the southern part Zaovrazhensky, the place of the former Finnish settlement	60 °27.057'	28°41.306'		birch-spruce forest	21 VI 2013	61
Island Rysiy, the central part of the island, near the isthmus between two peninsulas	60°32.313'	28°34.612'		spruce forest with birch	15 VI 2013	17
<i>Picea fennica</i> , close to <i>P. obovata</i>						
Murmansk Region, coll. Orlova L.V., Byalt V.V., Potokin A.F., Ivanov S.A.: Apatity District, 26 km west from the town of Apatity	67°40'53.0"	32°50'52.9"	250	southern slope on the mountain, <i>Fruticuloso-hylocomiosum</i> (7)	17 VI 2010	25
Monchegorsk District, environs of the town Olenegorsk	68°10'39.4"	33°19'12.6"	146	<i>Fruticuloso-hylocomiosum</i> (8)	17 VII 2010	26, 27

Leningrad Region, Kingiseppsky District, coll. E.A. Glazkova: Kurgalsky Peninsula, 1.5 km to the south of Kaibolovsky lighthouse	59°44.534'	28°01.803'		broad-leaved- spruce forest with nemoral herb species on the slope of Kurgalskoe Plateau	28 VI 2012	s.n.
Kurgalsky Peninsula, about 350 m to the south of Kaibolovsky lighthouse	59°44.244'	28°02.290'		broad-leaved-spruce forest with nemoral herb species on the lower part of the slope of Kurgalskoe Plateau	28 VI 2012	62
Kurgalsky Peninsula, the slope of Kurgalskoe Plateau near Gorkodok Hill	59°42.032'	28°01.531'			01 VII 2012	s.n.

Location	N	E	m a.s.l.	Habitat	Date	Number of specimens
Kurgalsky Peninsula, vicinity of Tiskolovo village				birch-spruce forest near the seashore (only mature cones)	11 IX 2015	6
<u>Leningrad Region, Islands of the Gulf of Finland, coll. E.A. Glazkova:</u>						
Island Gogland, the northern part, between Haukkavuori Hill and the bay Liivalahti	60°01.387'	27°00.230'		small-leaved-spruce forest with nemoral species <i>Sanicula europaea</i> , <i>Daphne mezereum</i> , <i>Ribes alpinum</i> etc.)	9 VII 2012	s.n.
Island Gogland, the southern part	60°02.667'	26°59.518'		spruce bilberry-greenmoss forest with <i>Melampyrum hians</i>	2 VIII 2015	1
Island Gogland, the central part of the island				spruce bilberry-greenmoss forest near the SE shore of Lake Ruokolahdenjärvi	6 VIII 2015	97
Island Gogland, the central part of the island, Mäkiinpelläys Hill	60°04.425'	26°58.043'		spruce forest with birch	12 VIII 2015	279
Island Moschny eastern part, about 800 m to east of Zarnitsa Bay, on the way to the isthmus on the Suissaari Peninsula	60°00.212'	27°51.068'		spruce forest green moss with pine	12 VIII 2017	9
Island Bolshoy Tyuters, NE part of the island	59°51.683'	27°12.767'		margin of spruce forest with aspen	5 VI 2015	122
Island Bolshoy Tyuters, the southern part of the island, W part of the former Finnish village	59°50.163"	27°11.907		seashore	29 V 2015	36
Island Bolshoy Tyuters, the southern part of the island, W part of the former Finnish village	59°50.163'	27°11.907		near the house ruins	29 V 2015	37
Island Bolshoy Tyuters, NW part of the island	59°51.717'	27°10.988'		rocky seacoast	04 VI 2015	107
Island Bolshoy Tyuters, NW part of the island	59°51.840'	27°11.407'		spruce wood sorrel forest	1 06 2015	70
Island Bolshoy Tyuters, W seashore	59°51.283'	27°10.575'		coastal selgas	30 V 2015	59
Regional complex sanctuary «Kurgalsky», a small unnamed island near the island of YanisariW of the Kurgalsky Peninsula), the southern part of the island					15 VIII 2012	27
Maly Berezovy Island, the central part of the island				spruce forest	10 VII 2014	21
Severny Berezovy Island, NE part of the island	60°26.770'	28°28.596'		sandy bay opposite of the sandbank Svetlana, margin of spruce-pine forest	2 VII 2015	1
Severny Berezovy Island, about 500 m S of Lake Taynoe	60°26.802'	28°27.954'		spruce bilberry-wood sorrel forest	9 VII 2015	59
Severny Berezovy Island, NW part of the island, to SW of the Cape Smolyanoy	60°25.917'	28°27.462'		spruce bilberry-green moss forest	9 VII 2015	62
Severny Berezovy Island, NE part	60°26.823'	28°28.434'		green moss spruce forest	18 VII 2016	6
Severny Berezovy Island, NE part	60°26.334'	28°29.235'		bilberry-green moss spruce forest near the coast	19 VII 2016	8
Severny Berezovy, NE part Island	60°26.739'	28°28.754'		bilberry-green moss spruce foreston-ly mature cones)	20 VII 2016	13
Island Krutoyar, the northern bay	60°28.737'	27°52.046'		birch-pine forest with spruce	6 VII 2013	73
Regional complex sanctuary «Prigranichny», a small unnamed island between the islands Krutoyar and Dolgiy Kamen				several trees 3-4) near the ruined house base	8 VII 2013	134

Location	N	E	m a.s.l.	Habitat	Date	Number of specimens
Island Dolgiy Greben', the south-eastern coast				Selga	6 VII 2013	92
Island Krasny				one tree on the selga	7 VII 2013	118
Island Kozliny, the northern part of the island				spruce bilberry forest	22 VIII 2011	s.n.
Leningrad Region, Islands of Vyborg Bay:						
Island Zaovrazhensky, the southern part of the Island, the place of the former Finnish settlement	60°27.05'7"	28°41.30'6"		birch-spruce forest	21 VI 2013	61
Island Zaovrazhensky, the southern part of the island, the place of the former Finnish settlement				birch-spruce forest	21 06 2013	62
<i>Picea fennica</i> , intermediate form

Leningrad Region, Islands of the Gulf of Finland, coll. E.A. Glazkova:						
Island Seskar, the northern part of the island				pine-spruce forest	3 VII 2011	38
Island Seskar, the northern part of the island	60°28.241'	27°49.894'		pine-spruce forest	11 VII 2012	
Island Dolgiy Greben', the south-west coast	60°00.891'	27°00.939'		one tree on selga rocks	6 VII 2013	96
Island Gogland, the southern part of the island, Paharakallio	60°05.605'	26°56.995'		spruce forest at the foot of the hill	3 VIII 2015	20
Island Gogland, the northern part of the island, Pohjoiskorkia Hill, near the stairs to the Northern Gogland lighthouse	60°05.593'	26°56.728'		rocks to the west of Pohjoiskorkia Hill	10 VIII 2015	216
Island Gogland, the northern part of the island Mustakallio					10 VIII 2015	231
Island Moschny, southwestern part, 200 m to east of Cape Zubets	60°00.263'	27°48.582'		sorrel spruce forest	17 VIII 2017	105
Island Moschny, southwestern part, to east of Cape Zubets	60°00.153'	27°48.432'		sorrel spruce forest	17 VIII 2017	108
Island Moschny, southwestern part, 200 m west of the northern tip of the lake Bolshoe	59°59.812'	27°49.113'		blueberry-green moss spruce forest	17 VIII 2017	109
Island Moschny, southwestern part, base of Uglovoy Capr	59°59.699'	27°47.725'		margin of meadow-lichen-green-moss pine forest on the sandy coast	20 VIII 2017	153
Island Bolshoy Tyuters, SW part of the island	59°50.509'	27°11.468'		spruce-pine bilberry forest	28 V 2015	20
Island Bolshoy Tyuters, the northern part of the island, E coast of Cape Triukinniemi	59°51.930'	27°11.424'		margin of pine forest, among boulders	1 06 2015	71
Island Bolshoy Tyuters, NW part of the island	59°51.397'	27°10.606'		coastal rocks	30 V 2015	44
Island Bolshoy Tyuters, NW part of the island, just west of Cape Rompiniami	59°51.498'	27°10.645'		coastal rocks	30 V 2015	49
Island Bolshoy Tyuters, NW part of the island	59°51.476'	27°10.624'		coastal rocks	30 V 2015	46
Island Bolshoy Tyuters, the northern part of the island	59°51.923'	27°11.875'		stony seacoast, pine-spruce forest	1 VI 2015	76
Island Bolshoy Tyuters, NW part of the island	59°51.840'	27°11.407'		spruce wood sorrel forest	1 VI 2015	78
Island Bolshoy Tyuters, NW part of the island, Cape Rompiniami	59°51.621'	27°10.696'		pine bilberry-greenmoss forest with spruce on selgas	30 V 2015	55
Island Bolshoy Tyuters, the northern part of the island, Katsomaviori Hill	59°51.304'	27°11.261'		rocks near the lighthouse, spruce-pine forest	28 V 2015	6
Island Bolshoy Tyuters, SW part of the island	59°50.509'	27°11.468'		spruce-pine bilberry forest	28 V 2015	20

Appendix 2. Summary of the Univariate analysis of Variance. Multiple comparison results of the *post hoc* Tukey HSD test reveal homogeneous subsets of taxa having similar vs significantly different mean values. Means for groups in homogenous subsets are displayed. Abbreviations of character names correspond to those given in Table 2.

- a. Means for groups in homogeneous subsets are displayed.
 b. The group sizes are unequal. The harmonic mean of the group sizes = 73,419 is used.
 c. Alpha = ,05.
