

# SPRAWOZDANIA DOKTORANTÓW

24 MARCA 2026 / MARCH 24, 2026

Sprawozdanie z postępów realizacji planów badawczych doktorantek i doktorantów PSD IPAN Instytutu Dendrologii PAN za rok 2025

Report on the progress of the implementation of research plans of Ph.D. students of the PDS IPAS at the Institute of Dendrology, Polish Academy of Sciences, for 2025

9.00-9.15

---

**mgr Magdalena Terlecka**

The effect of sex and clonality on the climatic-hydrological response of radial growth in white poplar (*Populus alba*)

9.45-10.00

---

**mgr inż. Tomasz Sobczak**

Enzymatic activity of introduced ectomycorrhizal fungi

9.15-9.30

---

**mgr inż. Dominika Robak**

Genetic diversity of black poplar on two Middle Vistula River islands

10.00-10.15

---

**mgr Hassan Nawaz**

Adaptation and plasticity of European beech in response to changing climate

9.30-9.45

---

**mgr Anita Rządiewicz**

Adaptation of plant cells to (long-term) osmotic stress conditions at the proteomic and metabolomic level

10.15-10.30

---

**mgr Amir Mohammad Mokhtari**

Oxidative stress signatures and antioxidant responses in artificially ageing seeds of sycamore (*Acer pseudoplatanus* L.)

10.30-10.45

---

**DYSKUSJA**
